The Center for Literacy Development was created to support literacy development from birth through adulthood. The center will continue to develop literacy support systems including:

Professional Development Opportunities

A learning community network of literacy leaders and teachers

On site professional development workshops and support

Ongoing training and professional development for Literacy Coaches

Preview of developmentally appropriate curriculum instruction and assessment strategies

Research Opportunities

Participation in literacy research projects

Assistance in planning and implementing research and evaluation studies

Resource Center

Website for On-Line Support

Curriculum Preview Site
