2021-2022

Revised 7.19.2021
INTRODUCTION TO THE PROGRAM

The Alternate Route program is a non-traditional teacher preparation program designed for aspiring teachers who have not completed a formal teacher preparation program at an accredited college or university but wish to obtain the necessary training to become a certified teacher in the state of New Jersey. As a partner in the New Jersey Provisional Teacher Program, Rutgers University, Graduate School of Education (Rutgers GSE) works with the New Jersey Department of Education to offer 400 hours of formal instruction to alternate route provisional teachers seeking standard certificates for general elementary and content specific subject areas. Rutgers GSE Alternate Route coordinates essential pedagogy classes in Bridgewater, Camden, Hackensack, Mercer, Newark, Paterson, and Rockaway accommodating a variety of novice teachers, some of whom are career changers seeking greater job satisfaction and others who are recent college graduates seeking to make a difference through teaching.

To meet the diverse needs of our teaching candidates, Rutgers GSE Alternate Route recruits a cadre of outstanding course instructors who have a wealth of educational expertise, classroom and administrative experiences, and repertoire of teaching and management strategies that any developing teaching candidate would treasure. In addition to the minimum requirements for an advanced education degree and 3-5 years of teaching experience, each course instructor has extensive classroom and administrative experience and can offer helpful, practical feedback on issues related to both teaching and navigating the alternate route program requirements.

The curriculum for Rutgers GSE Alternate Route is driven by the New Jersey Professional Teacher Standards and includes a survey of curriculum and assessments, student characteristics and learning styles, theories of motivation, classroom management and organization, and an introduction to current education industry leaders and vocabulary common to educators. Further, the curriculum is supplemented by the facilitated experiences of the course instructors, who in some instances team-teach sessions to offer as broad a perspective possible given the various placement assignments of the teaching candidates.

Classes are held in 4-hour sessions one evening per week and in 8-hour sessions on designated Saturdays. The teaching format for the classes is a lecture/seminar style with the provisional teachers taking on some responsibility in class discussions as the course instructor guides the class through its examination of the pedagogical topics. The classes are also held in a blended learning format where technology is leveraged for candidates’ flexibility in completing course objectives or continued engagement during snow days or unforeseen scheduling challenges.

To ensure that instruction is meeting its intended targets, teaching candidates are assessed through a combination of special projects, written assignments, class participation, and demonstration lessons. Guided by the instructor, teaching candidates collaborate on the preparation of scoring rubrics for assignments and thereby stake a claim in their own development and accountability measures. Achievement ratings are Excellent, Satisfactory, Developing, and Unsatisfactory and are awarded according to one’s performance in assessment areas.

*My overall impression of this course is very positive. I have attended 2 classes of another alternate route course with a different provider and by far this class is a much better one. We interact with each other more, we use more multimedia. The independent work is relevant to what we are doing in the classroom. Dr. Pierantoni is pleasant and very helpful so he made the class more interesting and productive. I also like the idea of the conference. Not only did I learn from the sessions but I also got a chance to meet others in my field I would otherwise have not met. Thanks again!*

*This course has been very helpful in allowing me as a new teacher to feel less isolated. It is good to have the support and interaction of others teachers who are experiencing similar situations. Likewise it is encouraging to learn from and have access to the wisdom and insight of a veteran educator, Dr. Hall. There is certainly a nice balance of the two. The conference was a nice way for me to have the opportunity to have professional development in areas which interested me, but weren't part of the normal curriculum. I would take advantage of others opportunities such as this if they became available.*

Alternate Route Provisional Teacher Training Phase II (ALT06)
$490

You MUST have a Provisional Teaching License and a teaching position to enroll in this course.

This course provides 60 hours of instruction and is delivered in a blended learning environment that involves both in-person and online instruction. The curriculum is designed to help Alternate Route Candidates develop teacher competencies in the following areas:

- Assessment
- Instructional Strategies
- Learner Development
- Planning for Instruction

Phases I, II and III are taken as part of a cohort arrangement.

Alternate Route Provisional Teacher Training Phase III (ALT07)
$490

You MUST have a Provisional Teaching License and a teaching position to enroll in this course.

This course provides 60 hours of instruction and is delivered in a blended learning environment that involves both in-person and online instruction. The curriculum is designed to help Alternate Route Candidates develop teacher competencies in the following areas:

- Assessment
- Learning Environment
- Learning Differences
- Leadership and Collaboration

Phases I, II and III are taken as part of a cohort arrangement.

Alternate Route Supervised Provisional Teaching Year I (ALT00)
No Fee

You MUST have a Provisional Teaching License and a teaching position to complete this course.

This course complements the content of instructional modules, fulfilling the first year clinical application requirement for provisionally licensed teachers. Candidates work with the support of a mentor to develop effective teaching practices, including effective classroom management, instructional methods, instructional planning, monitoring and assessing student behavior and learning, and differentiating instruction. Candidates receive formal observations from the evaluator of record, ideally aiming for a minimum of two consecutive effective evaluation ratings. This course places a heavy emphasis on the creation of required artifacts needed for both program completion and State Licensure.
50-Hour Online Pre-Service Course (ALT15)
$295

This course satisfies the requirement by the New Jersey Department of Education for prospective K-12 teachers applying for their Certificate of Eligibility. The primary goal of the program is to provide the prospective teacher with an overview of the teaching profession, featuring classroom management, lesson planning, and job search strategies.

The course is delivered online and also requires 20 hours of clinical education work which includes a four-hour classroom observation in the candidate’s intended area of endorsement, delivery of a guest lesson in a classroom setting, and an interactive field experience.

The class is completely online and asynchronous, which means there is never a set time when you are required to be online with the instructor. Nevertheless, it should be noted that due dates for course assignments are firm. Candidates complete independent assignments using a Rutgers course management system to which all participants are subscribed prior to the start of class.

You MUST HOLD a Certificate of Eligibility (CE) or MEET NJDOE’s CE requirements to enroll in this course. Sample learning modules include:

- NJ Professional Teaching Standards
- Teacher Development, Effectiveness & Impact
- Lesson Planning
- Classroom Legal Issues
- Survey of Instructional and Engagement Strategies

This course also requires candidates to draft a resume and cover letter suitable for the teaching profession.

45-Hour Literacy Across the Curriculum Course (ALT02)
$370

The purpose of this course is to introduce practices for teaching both basic literacy skills as well as distinct approaches to literacy that are used in academic disciplines such as science, mathematics, and history. While lower elementary teachers will learn strategies to ensure the mastery of basic literacy skills, middle and high school teachers in discipline-specific courses will advance their knowledge and expertise to help students interpret the complex texts associated with each distinct discipline. Further, elementary, middle and high school teachers will focus on discrete ways that writing is used in the specific discipline so that students learn writing practices that are specific to the various subjects and purposes. Of additional importance is the inclusion of English Language Learners and research to support their development of basic and academic literacy skills. Candidates work asynchronously as they engage with readings, power points and videos; then demonstrate learning through written reflections and performance assignments.

The class is completely online and asynchronous, which means there is never a set time when you are required to be online with the instructor. Nevertheless, it should be noted that due dates for course assignments are firm. Candidates complete independent assignments using a Rutgers course management system to which all participants are subscribed prior to the start of class.
45-Hour Online Math Across the Curriculum Course (ALT10)  
$370

This course is designed to foster an awareness that Mathematical Literacy, or Numeracy, is not the sole responsibility of the mathematics department. All content areas should, in fact, contribute to the development and enhancement of students numeracy skills including their ability to describe and explain their strategies and reasoning. This course will emphasize the rationale for teaching numeracy across the curriculum and distinguish for candidates the difference between the practice of teaching math content to students versus the practice of developing students' mathematical literacy. Candidates will explore content and methods for instructing all domains in mathematics at their grade level including strategies to ensure equity for all learners, inter-curricular connections, assessment design and effective instructional planning. Candidates work asynchronously as they engage with readings, power points and videos; then demonstrate learning through written reflections and performance assignments.

The class is completely online and asynchronous, which means there is never a set time when you are required to be online with the instructor. Nevertheless, it should be noted that due dates for course assignments are firm. Candidates complete independent assignments using a Rutgers course management system to which all participants are subscribed prior to the start of class.

60-Hour Supervised Provisional Teaching Year II (ALT12)  
$435

The purpose of this course is help second year provisional teachers build upon and refine basic teaching skills introduced in the initial year of teaching. This course is conducted primarily as a laboratory course under the joint supervision of the evaluator of record and the CE - provider program. Candidates receive formal observations from the evaluator of record, ideally aiming for a minimum of two consecutive effective evaluation ratings. With support from the CE program, candidates reflect on video-recordings of teaching experiences and explore pedagogical practices and beliefs in order to improve student learning and their teaching. Similar to the first course in this series, this course emphasizes the procurement of required artifacts needed for both program completion and State Licensure. NOTE: Successful completion of the Commissioner-approved performance assessment (edTPA) is a program exit requirement for this CE program.

These classes are completely online and asynchronous, which means you work at your own pace and there is never a set time when you are required to be online with the instructor. Nevertheless, it should be noted that due dates for the course assignments are firm. In addition to completing the course modules, you must also complete 20 hours of clinical experience. The clinical component is invested in conducting a 4 hour classroom observation; developing and enhancing a lesson that you will teach; delivering the lesson to your targeted student age group in a simulated classroom setting; and reflecting on the lesson as part of your professional teaching practice. The clinical experience also includes 4 hours of interaction with students via tutoring, small group instruction, workshop presentation, event chaperoning, or other relevant volunteer experience.

The purpose of this course is to introduce research-based strategies for teaching both basic literacy skills as well as distinct approaches to literacy that are used in academic disciplines such as science, mathematics, and history. While lower elementary teachers will learn strategies to ensure the mastery of basic literacy skills, middle and high school teachers in discipline-specific courses will advance their knowledge and expertise to help students interpret the complex texts associated with each distinct discipline. Further, elementary, middle and high school teachers will focus on discrete ways that writing is used in the specific discipline so that students learn writing practices that are specific to the various subjects and purposes. Of additional importance is the inclusion of English Language Learners and research to support their development of basic and academic literacy skills.

Candidates work asynchronously as they engage with readings, power points and videos; then demonstrate learning through written reflections and performance assignments. This means you work at your own pace and there is never a set time when you are required to be online with the instructor. Nevertheless, it should be noted that due dates for the course assignments are firm.

Because it is an online course, Literacy Across the Curriculum can be taken simultaneously with Phases I, II, or III.

This course is designed to foster an awareness that Mathematical Literacy, or Numeracy, is not the sole responsibility of the mathematics department. All content areas should, in fact, contribute to the development and enhancement of students numeracy skills including their ability to describe and explain their strategies and reasoning. This course will emphasize the rationale for teaching numeracy across the curriculum and distinguish for candidates the difference between the practice of teaching math content to students versus the practice of developing students' mathematical literacy. Candidates will explore content and methods for instructing all domains in mathematics at their grade level including strategies to ensure equity for all learners, inter-curricular connections, assessment design and effective instructional planning.

Candidates work asynchronously as they engage with readings, power points and videos; then demonstrate learning through written reflections and performance assignments. This means you work at your own pace and there is never a set time when you

Q. What is the process to receive a Certificate of Eligibility?

A. Please see “Certification 101” on page 4.

Q. What classes can I take without a job?

A. You can take the 50-Hour Pre-Service class, the 45-Hour Math class, and the 45-Hour Literacy class, all of which are offered completely online, without having a teaching job. All other classes require a Certificate of Eligibility AND a contractual teaching position.

Q. Which classes are offered online?

A. At present, the 50-Hour Pre-Service class, the 45-Hour Math class, and the 45-Hour Literacy class are all offered exclusively online.

Q. Which classes require in-person attendance?

A. The classes in our Phase-Series (Phase I, Phase II, and Phase III) all require attendance at the scheduled locations and times.

Q. Do I need to purchase any books or materials?

A. No, all the resources you will need will be provided to you at the start of the class.

Q. What is the format for the 50-Hour Pre-Service class?

A. It is offered completely online. At no time are you required to attend a class in-person. You will also be required to complete a 4-hour classroom observation. (See next question.)

Q. What does the 4-Hour classroom observation entail? Do I need to observe an actual classroom setting?

A. It is preferred that you complete an onsite observation in a classroom in the subject matter you intend to teach; however the instructor will provide an online video for those who do not have access to a classroom, especially during the Summer sessions.
Q. Do I need to be technologically savvy to take an online class?

No, all you need is a computer, basic internet service, and a Web browser, plus the ability to upload documents. We assure you, it’s really that simple.

Q. What is Canvas?

A. Canvas is our “online classroom”. It is the Web-based course management system we use to run our online classes. This is how instructors will provide the syllabus, course materials, and assignments to students. These systems provide students with a way to interact with their instructor and each other, ask questions, and submit completed assignments.

Q. Do I need to be online during the hours posted in order to get credit for an online class?

A. No, the class is operated asynchronously. This means you work at your own pace and there is never a set time when you are required to be online with the instructor. You can log on at any time once the class begins. However, there are set deadlines for completing class assignments.

Q. I am a Sabbath observer, therefore I cannot attend Saturday classes, is there another time I can make this up?

A. The instructors for both our online and in-person classes will make flexible accommodations for people with religious obligations.

Q. Will there be a grade given for the class?

A. There are no “traditional” grades. For the 50-Hour Pre-Service class, you will receive a Verification of completion Form (VOPC) upon satisfactorily completing the course. For all other classes, you will have access to your grades through the registration portal.

REGISTRATION POLICIES

Payment Policy:
Payments are due on or before your first day of class. A fee of $50.00 is assessed for late payment. If payment is not received by the 3rd class meeting, registration is cancelled and candidate will not be considered enrolled.

- All returned checks will be assessed a $25.00 fee and the subsequent payment must be received in the form of a money order.
- If a check or money order payment is made by someone other than the Alternate Route candidate, be sure to include the candidate’s name on the check.
- Please make all checks and money orders payable to Rutgers University.
- All enrolled candidates must pay course fees, regardless of licensing negotiations or appeals status with the state licensing entities. Rutgers GSE Alternate Route is not responsible for refunding fees to candidates who experience misguidance related to licensing from other sources.

Method of Payment:
There are three methods of payment for courses:

- You may register online with credit or debit card at http://ce-catalog.rutgers.edu/search.cfm. Enter “Alternate Route” in the keyword box to search for your desired course.
- You may call the Rutgers GSE Alternate Route office during business hours to complete registration by phone with a credit card.
- You may mail a check or money order made payable to Rutgers University to the address below.

Registration Deadline:

- The deadline for online registration for the Pre-Service, 45-hour Math, and 45-hour Literacy courses is two business days prior to the start of the course.
- The deadline for online registration for the Phase I, Phase II, and Phase III courses is the first day of the course. After that, you must pay a $50 late registration fee.

Cancellation Policy:

- If a class is undersubscribed, it may be cancelled. A full refund will be issued in such cases.

Refund Policy:
A full refund will be issued upon receipt of a withdrawal form received at least 10 business days prior to the course start date. Requests must be made using the Refund Request form found on our website. Verbal requests are not acceptable.

- A partial refund, less $25.00, will be issued for written cancellations received less than 10 business days prior to the course start date.
- Refunds or credits will not be offered once the course has begun.
