

Introduction to Cybersecurity
Infamous Cybersecurity Events Worksheet

Name:

Date:

Instructions: Research your assigned cybersecurity event and complete the questions below. Make a separate list of the websites and resources you used to answer these questions.

- A. What is the name of the malware attack?
- B. What year did the attack occur?
- C. What was the malicious action (what happened)?
- D. How did it work? What type of malware did they use, if any?
- E. What was the damage?
- F. How was it stopped (what was the defense against it)?
- G. What changed after the attack?
- H. Do we know who was involved?
- I. Did they get punished?
